THURSDAY, MAY 30, 2013 6:00 pm - 7:30 pm

COVINA PARK (at Skating Rink), 301 N. Fourth Ave., Covina

For clinic participation requirements and other important pet health care information, visit www.scvvc.com. For licensing, pet adoptions, and pet ordinance information, visit www.animalcare.lacounty.gov or call (877) 872-9738.

Flea Control Products available • Clinic is held on a first-come, first-served basis • Pet owners must be at least 18 years of age to participate • All pets must be on leashes or in carriers • Only healthy & non-pregnant animals will be vaccinated • Bring License tag, License Renewal Notice, or Prior Rabies Certificate to receive a 3-yr Rabies vaccine; otherwise, the vaccine will be good for 1 year • **CASH ONLY** for all veterinary services • Licensing available at the clinic (Checks accepted for Licensing)

NOTIFY THE VETERINARIAN PRIOR TO VACCINATING IF YOUR PET HAS EVER HAD A REACTION TO A VACCINE, OR IF YOUR PET HAS RECENTLY SHOWN ANY SIGN OF ILLNESS OR COULD BE PREGNANT.

MICROCHIPS FOR DOGS & CATS **\$25**

(Includes AVID PetTrac Registration & Lifetime 24/7 Lost & Found Hot-Line)

DEWORMINGS FOR DOGS & CATS (price depends on pet's weight) **\$13 - \$35**

DOG VACCINES

RABIES **\$10** (Age: 4 months & older)

All dogs 4 mos old & older must be vaccinated for Rabies and licensed. Vaccines are good for **3 years** if dog is over 1 yr old and has proof of prior licensing or proof of prior vaccination by a licensed veterinarian in the U.S. Otherwise, vaccine is good for **1 year**, regardless of dog's age.

DHPP **\$17** (Age: 6 weeks & older)

"4-in-1". "Distemper", "Hepatitis", "Parainfluenza" & "Parvo Virus". (Very contagious & potentially fatal diseases). **Age 6 to 16 weeks:** Initial series of 3 vaccines administered 4 weeks apart. **Older than 16 weeks:** Initial series of 2 vaccines administered 4 weeks apart. Thereafter, the first booster is recommended in one year, then boosters are recommended every 12 to 36 months.

BORDETELLA **\$14** (Age: 8 weeks & older)

"*Bordetella bronchiseptica* Bacterin". (Upper respiratory bacterial infection). **Age 8 to 16 weeks:** Initial series of 3 vaccines administered 2 to 4 weeks apart. **Older than 16 weeks:** Initial series of 2 vaccines administered 2 to 4 weeks apart. Thereafter, 6 month or annual boosters are recommended, depending on exposure.

LYME **\$22** (Age: 9 weeks and older)

"*Borrelia burgdorferi*". A tick-borne disease. Only recommended for dogs living or traveling in areas where tick infestation is a problem. **All ages:** Initial series of 2 vaccines administered 2 to 4 weeks apart. Thereafter, annual boosters are recommended.

CAT VACCINES

RABIES **\$10** (or "PUREVAX" **\$20**) (Age: 4 mos & older)

Even indoor cats are at risk of contracting this fatal disease. Vaccine is good for **3 years** if cat is over 1 yr old and has proof of prior vaccination by a licensed U.S. veterinarian. Otherwise, vaccine is good for **1 year**, regardless of cat's age. "Purevax" vaccine can help reduce the risk of cats developing sarcomas (cancer) sometimes associated with Rabies vaccinations. It is always a one-year vaccine. Cat licensing is recommended, but not required.

FVRCP **\$17** (Age: 8 weeks & older)

"3-in-1". "*Feline Viral Rhinotracheitis*", "*Calici*", and "*Parvleukopenia*" are serious upper respiratory infections. **Age 8 to 16 weeks:** Initial series of 3 vaccines administered 4 weeks apart. **Older than 16 weeks:** Initial series of 2 vaccines administered 4 weeks apart. Thereafter, annual boosters are recommended.

FELV **\$19** (Age: 9 weeks & older)

"*Feline Leukemia*" is a highly contagious and potentially fatal disease. **9 weeks and older:** Initial series of 2 vaccines administered 4 weeks apart. Thereafter, annual boosters are recommended.
